

Florida DOT District 7 Retainer: Road Safety Audit Report

CLIENT: Florida DOT District 7

Planning

synectics
SAFETY SPECIALISTS

Synectics, in partnership with Tampa Bay Engineering, is on retainer to provide RSA training and audit team leadership in conducting RSAs for FDOT District 7. As a result of this partnership, Synectics has had the opportunity to lead a number of audits and provide on-site training to local and state transportation staff.

One recent in-service road safety audit was conducted in Tampa, Florida. This RSA was completed recently. This was a “first-in-jurisdiction” RSA which included the provision of refresher training for Florida DOT staff as well as for the RSA Team. This audit, conducted over a 2 day period was the first in a series of audits being conducted by the DOT as part of a pilot RSA program for the State.
